

Editor's Introduction

SHADDIN DUGHMI

University of Southern California

Issue 14.2 features 5 excellent letters, as well a retrospective by Sam Ganzfried on the first man vs machine no-limit Texas Hold 'em competition. In his retrospective, Sam reflects on the design of their agent — Claudico — and the lessons learned from observing its performance against world-class poker players.

I hope you enjoy this issue. Please continue to volunteer letters, surveys, and position papers. As usual, thanks to Felix Fischer for his help in putting the issue together!
